Dies and Equipment for Making Half Dollars Taken From Rooming House.

Four men were arrested Thursday by olice and Federal secret service agents on charges of passing counterfeit quarters and half dollars. Three sets of dies and equipment for making half dollars, and a bag containing 84 50-cent pieces were found in rooms at 717 North Garrison avenue, occupied by two of the men, and several counterfeit coins were und in their pockets.

The men gave their names as James Cella, 717 North Garrison; Charles Wilson, 1418 Locust street; Louis P. Mez-Rausom, 717 North Garrison.

Caught in Act.
Cella and Wilson were arrested while hey were attempting to pass counter felt coins in resorts near Second and oplar streets, according to the police. From them the police learned the adess of Mezzano and Rauson,

Chief Secret Service Agent McHugh, accompanied by two city detectives, went to the Locust street address and ade a search of the rooms occupied by Wilson and Mezzano, but found no evidence connecting them with the counterfeit coins. They then went to 717 North Garrison avenue, and found Mezzano and Rauson there.

The men were arrested, and in a search of the rooms the officers found the dies and bag of coins hidden behind some articles of furniture. In their ockets were found several of the bogus coins, according to detectives.

The men denied all knowledge of the dies and coins, and declared they did not know the apparatus was in the m or how it got there.

McHugh said the coins found in possion of the men are of good make counterfeits, closely resembling uine money, and having the ring ommonly found in United States silver

He had attained an altitude of about He had attained an altitude of about eight hundred feet over the ocean when a gust of wind tilted his machine and threw him out of his seat. His right foot became entangled in the wires which control the alierons and the machine immediately began to sink. It had glided nearly 800 feet down, it is said, before Capt. Hennessy succeeded in freeling his foot.

The machine had kept an even keel and he managed to regain his seat and control of the plane when the machine was within 200 feet of the water.

Garden of Allah and Villages in Path of Ten-Mile Wave of Flame in California.

SAN FRANCISCO, July 10 .- Five sollers are reported burned to death and half dozen little hamlets and towns at the foot of Mount Tamalpais await their salvation or destruction today, while the fire which swept through the redwood forest in the mountain for three days is reaching toward the plains and vineyards to the north and the Muir Woods National Park on the

outh. Every available soldier from the San Francisco Presidio and Fort Winfield Scott on this side of the bay and Forts Baker and Barry, across the Golden Gate, is fighting the fire, side by side with civilians and sailors. Probably 6000 men are on the fire lines, seeking to

all the people in California to put out that fire. Let it burn out. I have expert gun pointers among my men worth \$25,000 apiece to the Government. I am

not going to risk their lives."

Mount Tamalpais, a landmark of California and the playground and park of the cities clustered about San Francisco Bay, is cloaked by day by a mantle of smoke, but at night the reflection from its glowing flanks is painted on the skies.

The summer trade winds have whipped the flames before them across canyons and trenches laboriously hewed and spaded through the underbrush and into fresh timber on the far side of acres burned bare by back fires. Careless

campers are blamed.

In all the territory women have worked almost as hard as the men, cooking rations. Shops are closed and business is at a standstill. In command is Col. George Bell of the Sixteenth Infantry, U. S. A., assisted by Coert Dubois, district chief of the United States Forestry Service, and C. F. Run-

scenic railway. The fire has eaten its way west to the heads of two canyons on the east and north side of the mountain, leading to the towns of Mill Valley, Corte Ma-

dero and Larkspur.

Blythedale Conyon, leading to Mill Valley, is lined with country places. The most exposed of these is the Garden of Allah, owned by Ralston Lovett White

Young Man at City Hospital Says Assailant Seized Girl's

Arm in Hallway. Mark Hannon, 22 years old, declared wound in his abdomen was inflicted Wednesday night by a man wearing the uniform and cap of a city fireman. He says he noticed particularly the letters

"F. D." on the cap.
Hannon has been in St. Louis only few days and has lived at 1804 South Third street, He said he met a man whom he knew as "Del," and a young voman, and was talking with them in a hallway near his lodging place when the man in uniform came up and seized the girl's arm. Hannon said he and "Del" remonstrated, and that the man

then stabbed him. The police learned that "Del" was Delmore Keeshan and that the young woman was Miss Lena Volker. They have not found the man Hannon says

A. C. Shaw of Canadian Pacific Receives New Appointment.

A Gigantic Sale of Desirable Millinery The general business depression prevailing over the entire country enabled us to make some

attractive purchases of Millinery, and in connection with our already heavy stock finds us with more goods on hand than usually carried at this time of year. We are therefore determined to unload, if prices will do it. We are inaugurating this gigantic sale tomorrow and will continue until every dollar's worth of Millinery will be disposed of. Every day we will have new and attractive things to offer. This sale does not mean only Hats, but everything in our Third Floor and Basement Millinery Section, such as Ribbons, Flowers, Wings, Feathers, Bands, and in fact everything pertaining to a millinery store.

Well-Known Rochester Citizen Saved From Serious Trouble

I have used your preparation Swamp Root with great success, and for kid-ney and bladder trouble I have never found anything to equal it. I have rec-ommended it to a great many people and have never been disappointed as to results obtained from its use. I feel it my duty to write you this as it may be the means of persuading others to give this grand remedy a trial.

Dr. Kilmer's Swamp-Root saved me from Bright's Disease and Dropsy in 1884, after the doctors said I could not possibly live. Yours very truly, A. J. BROWN,

The Acolian Co

Walther Bridge Statement in Post-Dispatch on A. & M. Proposal Discussed.

WANT CITY PROTECTED

Member Says Alton-Mississippi Offer Should Be as Liberal as Its First One.

Members of the Municipal Assembly discussed with keen interest, Thursday, the exhaustive statement of former City Conuselor Lambert E. Walther in Wednesday's Post-Dispatch, outlining the history of the various proposals made to the city by the promoters of the Alton and Mississippi Belt Railway and Transportation Co. The Alton and Mississippi Co. is now seeking to induce the city to build along its right-of-way the East Side railroad approach to the free bridge at a cost to the city of \$1,500,000.

The Assemblymen were surprised to learn from Walther's statement that in addition to deeding to the city a free right-of-way, the Alton and Mississippi promoters, when negotiating with city officials three years ago, had offered o donate the sum of \$400,000 in cash which amount they estimated would cover the cost of building the approach from the point where it left the pres-ent located Reber approach to the point there it would come down to the sur-

Mayor Kiel and President Kinsey of the Board of Public Improvements are now asking the Municipal Assembly to build along the Alton & Mississippi's right of way an approach five miles ong, connecting with the company's proposed belt railway at the East St. proposed belt railway at the East St. Louis bluffs (the terminus of the city's new proposed East Side railroad ap-proach), and extending to the Madison County line, a total distance of 15 miles.

County line, a total distance of its miles.

Objections to Ordinance.

The Alton & Mississippi promoters say they object to the pending ordinance on the ground that the city is attempting to control the terms under which the Alton & Mississippi will permit other than the city of the control the control that the city is attempting to control the terms under which the Alton & Mississippi will permit other than the city of th railroad lines to use its belt road. As a matter of fact, the ordinance as it now reads, gives to the Alton & Mississippi exclusive authority to make its own contract with other railroad comnies. Until the "financial backers" of the enterprise can be consulted, the Alton & Mississippi promoters say they the Kiel-Kinsey administration bill.
Attorney Walther's comment on the interest behind the Alton & Mississippi throws striking light on the company's "The Alton & Mississippi Co.." declares

Walther, "was organized with a nominal capital of \$25,000." Company's Capital Stock.
"All that was put into the company in payment of this capital stock, however, was a parcel of land in Cahokia Commonfields, containing about 57 acres. This tract was controlled by Prosper J. cy, another East St. Louis real estate dealer, and the land was conveyed to the company in payment of its stock, subject to the mortgage of \$32,000 to Soucy, which the company assumed. The ncumbrance thus amounted approximately to \$6000 an acre, which, accord-

ing to real estate experts consulted by the city officials, was as much, if not more, than the land was worth. This constituted the company's capital at its organization. Mr. Stern (one of the com-pany's lawyers) testified he knew of no other assets belonging to the company, but that Mr. Haberman, another attorney, had told him he expected to get ncial backing in the east."

One of the singular features in the present situation lies in the failure of the Mayor, the President of the Boar of Public Improvements or any other city official to investigate the alleged claims of the Alton Mississippi Co. as to the ownership of land on the east side of the river or as to the assets

No City Investigation, From the inception of the negotiations pending between the city officials and the Alton and Mississippi Co., the Board of Public Improvements has accepted the figures and information supplied by the Alton and Mississippi promoters. There has been no independent investi-

race has been no independent investigation of the company or its right-ofway by Mayor Kiel or the members of
his official family.

Delegates Barney T. L. Schwartz of
the Twenty-fifth Ward and Linn R.
Brokaw of the Twenty-eighth, Councilman Daniel R. Meehan and other Assemblymen, told a Post-Dispatch report-er that the city ought to demand from the Alton and Mississippi certificates of title to the property which the company contends it owns in St. Clair County and particularly as to the fivemile strip which it offers to give to the city for a railread approach to the bridge for the nominal consideration o

"Unquestionably," said Delegate "Unquestionably," said Delegate
Brokaw, "the city should require a clear
title to these lands and be assured that
the Alton and Mississippi is financially
able to build a belt line.
"An official certification of the deeds
by the Circuit Clerk of St. Clair Coun-

ty should accompany the ordinances just introduced.

"I was very much interested in Mr. Walther's review of the Alton and Mis-Walther's review of the Alton and Mis-ississippi Co.'s proposition to the city in 1910. The fact that the company at that time offered to the city not only a free right of way but a bonus of \$400,000 in cash to cover the cost of con-structing the East Side approach to the bridge, whereas no cash offer ap-pears in the pending proposition, makes the ordinances now before us open to

Will Investigate Bill.

"Mr. Walther's information will be of great service to the present Assembly. Personally, I have not investigated the ordinance presented but I hope in the next few days to study its provisions carefully. I do not think the Assembly

position. The first question after all to be determined is whether we shall ahanden the Reber approach and if so what reason shall we give for doing so. The bridge question, I think, is somewhat confused in the public mind just

THURSDAY EVENING, JULY 10, 1913.

Delegates Schwartz said: "It is a self-evident proposition that if the Alton & Mississippi offered the city \$400,000 in addition to a right of way, when its proposition was originally submitted to the city, there is no doubt the city will demand equal concessions at this time. I had hoped that the Alton & Mississippi proposition would solve the bridge approach question, once the Assembly there went into the Alton and Mississippi offered the city will be thoroughly aired and I am sure is not a great deal, I judge."

Speaker Andrew Gazzolo: "Mr. Wallproposition, once the Assembly there went into the Alton and Mississippi offered the city will be thoroughly aired and I am sure the Assembly will try to get all the light on it that is possible."

Dr. Jerome F. Potts Watches Blaze Awhile and Then Goes' Away.

Backfire ignited the gasoline in a distinct to the Assembly. I don't know whether it is a good or a bad bill. It will be thoroughly aired and I am sure the Assembly will try to get all the light on it that is possible."

Speaker Andrew Gazzolo: "Mr. Wallproach question, once the Assembly there went into the Alton and Mississippi

was satisfied as to the financial solidity of the company's backers. This information is imperative. I believe the Assembly should know everything that is to be known about the company before and Mississippi bill through until all is to be known about the company before and Mississippi bill through until all legislating on the proposed railroad and its features are threshed out therough.

GIRL FOUND IN LAKE

District Attorney Obtains Scores of Missives Between Her and Accused Man.

AUTO MAN TELLS STORY

Evidence Brings Another Man Into Case at Time Girl Was Last Seen.

WILKESBARRE, Pa., July 10.—Scores of letters that passed between Alice Crispeil, 18-year-old daughter of a farmer, whose body was found in Harv-ey's Lake Monday, and Herbert Johns, mine worker, under arrest in connection with her death, have been obtaine

"So many things are troubling me that I feel like jumping into the lake," she said in one letter. Johns, in a letter to

and end all my troubles. Why, darling, I have so many I do not know what to do with them."

County Detective McKelvey said Johns admitted both had been advantaged. "I had a notion to jump into the lake

admitted both had been drinking on the night of the Fourth of July, the last light the girl was seen alive.

District Attorney Bigelow and detec

tives held a conference behind closed doors and went over correspondence between Johns and Miss Crispell. The District Attorney succeeded in getting

fresh batch of letters today.

The belief is gaining that Miss Crispel was afraid to go home after she left Johns because her father previously had punished her for remaining out late at night, and, seized with remorse, she threw herself into the lake.

Detectives put Johns through an exam ination this afternoon. He was unnerved and his memory was defective, detec

Case Becomes Complicated. Further complications were added to the case by the story which Sephiana I. Reese, auto dealer and machine shop proprietor of Plymouth, volunteered to State troopers working with County Detectives Helman and McKelvey. Reese had an auto at the lake or

July 4. He took out parties and at 11 o'clock at night had a call to Lehman Center, several miles distant. When Reese left the Oneonta Hotel, Miss Crispell, Herbert Johns and several ads were in the cafe of the hotel. Reese started out over the lake front road, in the direction of the Crispell

As he came to the boat landing his lights shone on a pile of logs, and crouching on these logs was a man in a dark suit. Reese went on. He re-turned about 11:30 o'clock and when he me again to the logs he threw his this and the man in the dark suit was still crouched there Came Upon Couple.

A few yards away, Reese came upon couple walking along the road. The man wore a gray suit and the girl had on a blue dress.

The man was leading the girl and, Reese said, she appeared like a drunk-en girl or a girl who had been "doped." Reese went back to the hotel and later returned home.

Johns wore a gray suit and Miss

Crispell wore a blue dress. They were met at just the hour Johns says he and the girl came to the boat landing. It was at this point Johns says he left the girl and permitted her her journey home alone.

Harrison Cann, alleged rival of Johns, has come forward with the statement that Miss Crispell was an epileptic and she was stricken in three different ho-tels in this city. Counsel for Johns will use this for a defense, if necessary, stating the girl was seized with a fit after leaving Johns and fell in the

Policeman, When Told He Was Too Familiar With Woman, Asked to Be Shot.

HACKENSACK, N. J., July 10 .- Jame S. Devlin, a vaudeville actor, who was charged with murder in the first degree for killing Patrick Considine, a police-man, in Deviln's home, May 24 last_was acquitted by a Supreme Court jury here vesterday.

It was charged that when Devlin accused the policeman of being too familiar with Mrs. Devlin, Considine soid:
"If you think that, you'd better shoot ne." and produced a revolver. It was alleged that Devlin took the weapon, and, as the policeman stood with hands

praised, shot him.

Devlin's defense, as outlined by hi wyer, former Assemblyman Berg, was: This man Considine was a big brute. After brutally assaulting Devlin, he said: 'Now, you little mut, there's agun; now shoot.' Devlin, half uncon scious from the attack, took the gun and fired the shot."

A hotel keeper testified Considine was a "wild beast" when drunk, and a paa "wild beast" when drunk, and a pa-trolman swore Devlin's shirt was in when he arrested the actor.

that isn't in Goodrick Goods

Forty-three years of buying erude rubber, compounding it and manufacturing things of it means a lot. It means that the rubber, which is the life of your tire, is compounded so that every bit of the buoyancy, resilience, resistance and tough, mileage-giving wear is retained.

It is the Goodrich principle of Unit Molding which makes each Goodrich Tire - tread, body and all—a single, layerless structure full of life and durability. Goodrich Unit Molded Tires

'make good'' for themselves. The thick tough tread, the layers of pure rubber, the side strips, the bead, the layers of fine stout fabric —all are unified inseparably in the Goodrich single vulcanization.

That is the reason why you are free from the dangers caused by weak spots or dead places which come from over vulcanizing which cooks the life out of the rubber.

The usual guarantee goes with each Goodrich Tire, but remember that the tire itself makes good. Unit Molding puts the guarantee in the tire gives it the liveliness and road-resisting quality which insure you long, continuously-uniform wear and service. Goodrich dealers, Goodrich

branches and Goodrich service stations are alertly ready to satisfy the wants of the tire user immediately. You can get any size or style in Goodrich Tires-but only one quality. Write for our free folders telling you how to get the best service from any tire.

Any car you own or buy will be equipped with Goodrich Tires if you simply specify them.

When these anxious remarks are heard by Mrs. Reger Hayne, director of the institution, or by Mrs. Rachel Davis. superintendent of incurables, there is gentle rebuke for the worrled ones. "Have faith," say the serene women conducting the home. "Everything will

ome out right." A big task has been set for their faith by the impending foreclosure of the mortgage which, with interest, reaches the sum of \$16,000. No soliciting is being done by the women, for they have never asked funds.

Many gifts toward the mortgage fund have been made since it became known week before last that the existence of Bethesda was threatened. The gifts mostly have been small ones. One 12 year-old boy, Mrs. Davis relates, brought \$10.

"Five of this is from mother, and five from me," the boy said proudly.
"But where did you get so much?" the superintendent asked him.

"Oh," said the boy, "father gives me \$5 every year for Fourth of July. This year I thought I'd rather help save the bables' home than have fireworks. I had my fun on the Fourth, just the same. I went swimming and took in

Bethesda is a faith institution, and nas for 24 years been supported on this principle. Each department is under an orderly and economical management, and cleanliness and cheer prevail through all. The furnishings and food are plain, as befits the fact that some of the dollars which pay for them are earned with the needle and over the washtub. Gifts for the daily support of the home have been ample, and it is a debt on the building which now ens the institution's existence.

On the first two floors of the found-ling home, the 85 infants have their little white beds, their numbered gowns and their play-piece on the cool, smooth Many of them are too little to play at all, and those who are big enough to stand, holding the sides of their beds, show pride in the accom

There are three sets of twins in the Bethesda collection of baby life. Mrs. Hayne, who has charge of matters of adoption, will try to place the twins that they will not be parted.

The nurses' home is on the third floor of the same building. In an annex at the rear, Mrs. Elizabeth McClintock, gentle and silver-haired, presides over the old ladies' home, which has 37 innates, or, rather, guests.

Each aged woman has her own room nung with pictures and mottoes. Grandma Like, 91 years old, a resident of Bethesda more than 20 years, is the oldest. Miss Ransberg, 90, is a close second. Miss Stein, the youngest, has hardly reached middle age, but likes to be with the older women, though she might claim a place with the younger ones in the incurable ward. She never has walked, "but," she tells every vis itor, "some day I will walk."

Experts in Fancywork, ong these women are several ex perts in fancy work, and doilies, spreads and quilts in various stages are proudly displayed to the visitor. A few wome are superannuated teachers, whose service in schools ended before the present voluntary pension fund arrangement

was made.
That Bethesda has many friends is shown by the plates on the doors of the wards and of individual rooms. These show the rooms were furnished by this or that person, and the names in most cases do not suggest wealth. An ex-ception to this is the Erna Rice ward, the home of the incurables, furnished by Mrs. Jonathan Rice in memory of her daughter. Mrs. Rice is a frequent vis ftor to the home, and usually looks after the expenses of some patient whose affliction is such as to make her an especial burden. Just now she cares for Sins, a girl of 15, whose throat is paralysed, and who can swallow only certain sorts of food, placed far back

Before the estate of the late Arthur J. King, President of the King Piano Co., can be settled, every piano and playerpiano now in our various stores and factories must be sold, so that the business can be turned over to the new officers and managers of the King Piano Co., which business will be conducted along practically the same lines as in the past. It would take many months to dispose of this enormous stock of instruments if they were to be sold in the regular way, but as we are compelled to sell them all within a few days, we know that the only way to do this is to give such unheard-of prices, terms and conditions that no one, ever thinking of buying a piano, can afford to miss this opportunity and do themselves or families justice. Practically anything in the universe could be sold in a few days if prices, terms and conditions were made favorable enough, therefore, we have spared nothing to dispose of this mammoth stock of pianos within a very few days. The following prices, terms and conditions will remove this mountain of pianos in cyclonic time.

HE vast possibilities of this greatest mercantile event in the annals of St. Louis' retailing are daily becoming better & more widely known, & each day sees interest in the sale more widespread & the true helpfulness of it more far reaching.

Somebody one time very wisely said: "The use of money is all the advantage there is to having it." The pronounced advantages for the use of money in this great outclearance have been shared by thousands of people. & those who have purchased most have profited greatest.

This Removal Sale will make a strong appeal to your pocketbook. Through the values offered it will make the money you invest materially increase its usual purchasing power. It will make that money more valuable to you by 10% to 50%, & oftentimes even more, because the savings on new, desirable merchandise which you will have daily need for are that great.

This Removal Sale is not to be confused with the twice yearly clearing les. It is not to be considered in the same class with special purchase lots, odds & ends & closeouts of stocks that are not fresh from the activities of progressive retailing. It ranks pre-eminently above all other events of like nature, because our entire stock of A MILLION & A HALF DOLLARS' WORTH of well-chosen, new & dependable merchandise is involved, & because

Every Article in the Stock Has Been Reduced From 10 to 50 Per Cent, & Often Even More

excepting alone about a dozen lines on which the selling price is restricted

Whatever the personal or home needs may be, whether for present or future requirements, if they include articles such as are kept in a progressive department store, then it is distinctly to your advantage to come here Friday, where YOU CANNOT PAY THE REGULAR PRICE FOR ANYTHING (excepting the very few restricted lines) & where everything that is offered is as desirable as if the regular worth was asked.

EARLY morning shopping is more profitable & pleasurable. Early in the week buying is more advantageous, too, because of the week-end half-day closing.

XCHANGES & refunds are cheerfully made on any goods proving unsatisfactory for any reason, but it is necessary that original sales checks accompany all merchandise for exchange.

THE POLICEWOMAN'S COSTUME.

Chicago suffragists have secured the installation of the policewoman-ten of her are to be added to the force. As far back as the fig leaf, the question of what she shall wear has always properly engaged woman's first attention, and the suffragists naturally turn first to the problem of a avert a strike if possible. His kind of "common proper costume for the perfect lady officer, since of course she must go clothed and in her right mind. Much debate has ensued, and the following dispatch from the breezy metropolis gives us the happy and simple solution:

The suffragists were keen in their discussion of what uniform the proposed addition to the police force should wear. All agreed she should have a star. The more militant believed she should carry a revolver, but not a

Rather natty, and suitable no doubt to the Chiago summer climate, but will a star, a revolver and a coat of sunburn afford sufficient protection against the icy lake winds of winter?

We fear it is going to be hard to get ladies to serve under these conditions, unless Chicago chooses to employ some of her terpsichorean artists who do the classic dances in accordance with the earliest sartorial traditions of the race. We believe that a shield and spear would be preferable, such as the Amazons wore. A sunshade in er and possibly a feather boa in winter would help out the ensemble. \$400,000,000 FOR MOVIES.

Roughly, eight billions of nickels, or \$400,000. 000, were spent by the American people on picture shows last year, if the movie men at their New York exposition are telling the truth. Four bilssions are represented by that sum. At 10 cents a head, each man, woman and child in the United States would have to attend the movies 40 times to make up the staggering total.

Assuming a population of 100,000,000, is it possible that it averaged 40 shows per capita and at \$4 per capita for the diversion? Or, is that every other family in the counent to the picture show 80 times last Or, did every fourth family go 160 thrice a week? Or, have the who went every evening been nugh to make up the average? The sible number of times per year that dy can go to a picture show is 730, or twice diem. If the entire population of the country nt twice every day, the result would be only 186 ion nickels, or \$9,300,000,000.

However, the movies have certainly prospered and they have deserved prosperity as no other entertainment has. They uniformly and monot-oneusly give value received. Nearly everybody has a good word for them: Even the family dog likes them. They have succeeded not only because they were convenient and cheap, but by dint of extraordinary effort to please, prodigious energy, remarkable ingenuity and a large measure of hencety with the public.

THE A. & M. APPROACH.

In the light of former City Counsellor Walther ition of the Alton & Mississippi belt railroad project and its dealings with the city, there need on no worry about the identity of its backers. If the ordinance accepting its promoters' offer of an approach is passed, the city will be the principal backer of the scheme and will give prosperous substance to a gauzy fabric of speculation.

Mr. Walther shows that the Alton & Mississippi promoters have resorted to every possible device and legal trick to block the city's effort to obtain an approach outside of their speculative right of way, to gain an advantage over the city on the East Side and to force a deal for their benefit.

The promoters are on record as offering their good faith in litigation affecting the East Side approach by pledging the company to build the very approach which the city now in the Kinsey-Kiel ordinance undertakes to build for them.

So anxious were they to have the city take over their approach that the promoters offered to give the city \$400,000 as compensation for doing what it is now proposed shall be done for nothing.

What does the city actually get from the Alton & Mississippi for the privilege of building their belt line approach? What lands, if any, does the company own? In the former investigation of the ompany's offer its holdings were found to be nil. What proof is there of the options the promoters claim to have? Surely there should be a guar-

The objection urged to the Reber approach was that it might be "bottled" by the Terminal Association, which has been opened to all railroads by the United States Supreme Court and which offers the bridge 17 railroads. If there is danger of bottling in that direction, what shall be said of the city's deliberately giving to one corporation the power to control the entrance to the bridge?

Every question concerning the Alton & Mississippi project must be cleared up and every obstacle to its availability for prompt use removed before it can be considered. The city's interest is paramount. The East Side approach should be independent of every other corporation and must be owned and controlled in every part by the city.

THE "WHY" OF THE BALKAN FIGHTING.

The statesmen who brought Greece, Bulgaria Servia and Montenegro into alliance to fight the Turks provided as nearly as human foresight might against just such a depressing and disillu- quest things cooked in a chafing dish o sioning outcome of their coalition as has come to If you go into a first-class hotel or cafe

A plan agreed on in advance arranged the distribution of the territory it was expected to win. Several things, however, combined to render the tentative plan of division inequitable at the close of the war. To prevent the danger of a general European conflict, the great rowers had decreed that Montenegro must not hold Scutari and that Servia must not have a port on the Adriatic. They had also decreed that thousands of square miles of cantured territory must be erected into the independent state of Albania, instead of being added to the domains of the allies.

Thus, through pressure from the outside which they could not resist, the victors were deprived cess. It happened that practically all the territory in whose disposition the powers concerned themselves came out of the apportionment made before the start of the war to Montenegro, Servia and Greece, while Bulgaria's share, being farther from Austria, remained undiminished. Bullying from Vienna having prevented the original plan from being carried into effect, the three Balkan states naturally insisted on a new plan of division. To this the Bulgarians meanly refused assent and they are now slaughtering their former comrades in arms to keep the lion's share under the original agreement and compel all losses due to Austria's veto to fall on their allies. Perhaps shifts as rapid from devoted friendship to murderous enmity were known in the petty medieval wars of small Italian states. No recent instances are known.

After warring on the Turks for causes among the most worthy that give rise to war, the allies are now warring on one another for causes among the most ignoble. Having looted a decadent empire in the cause of justice and right, they halt by the wayside like bandits for throat-cutting and pecket-picking among themselves.

LETTERS FROM THE PEOPLE

The Walters' Strike

To the Editor of the Post-Dispatch.

In an editorial published Monday you characterize the action of the hotel employers in discharging the waiters because they belonged to a union, as an act of barbarous warfare and in violation of the principles of freedom. You assail when the McTague waiters struck because he employed nonunion white men. Is it not a violation of the "principle of freedom" to deny to a nonunion white man the right to work for Mr. Mo

The union said to Mr. McTague: "You shall not employ a nonunion man." It said to the nonunion man: "You shall not work for Mr. McTague." With such actions fresh in the public mind, it now comes with poor grace for your paper (which seems to be the oracle of the unons) to prate about "the principle of freedom." The unions dictate where they can and its mem bers too often resort to violence, and for these

reasons an appeal in their behalf loses force. The writer is not a capitalist and is affiliated fairness and consistency. Supplanting the white man by negro labor

brings up a different question, and one I am not The labor unions were wrong in the first place in their dictatorial attitude and brought on the trouble; and it is this thought which makes one indignant at the tone of your editorial.

AN OBSERVER (We publish the above letter, although it grossly misrepresents the editorial, because of our rule of fairness in presenting all sides of a question. The editorial did not condemn the hotel men for discharging waiters "because they belonged to a union"—we would condemn action of that kind-but it condemned them because they discharged their waiters regardless of whethe they were union men or not, in anticipation of their being unionized. The editorial distinctly demanded the application of the same rule of reedom for the waiters with regard to their right to join or not join a union as is claimed by the hotel men in insisting upon an "open shop" and an organization of their own. Waiters' Fines.

To the Editor of the Post-Dispatch. A member of Local 203 in last evening's paper given the number of working hours correct, but he forgot to mention several things the public should know. When we break a small dish (which the most careful waiter will sometimes do, and which costs 21/2 cents) we are fined 25 cents. Now if we must pay for these dishes why not charge the cost price? If we are five minutes late, we are fined 50 cents. And such it is day after day, a fine for every little thing we do. course the managers do not want a union, for they know they would have to treat the help half way civil. Such treatment any white mar will rebel against, while it seems a negro is satisfied as long as he is making a dime. We do not even get a living wage (\$7 per week), bu must depend on tips. ANOTHER STRIKER.

A Wife's View of the Waiters' Strike. To the Editor of the Post-Dispatch.

If the public at large wishes to hear and will listen to a woman's view of the waiters' strike, I will endeavor to give my version of it, and as I am a waiter's wife I think I am in a position to know of what I am speaking. No doubt some people will say, "what are they striking for?" They are striking for conditions to enable them to live as any other working man wants to live.

They are striking for a wage scale and an hou scale so they will be able to call life their own. They are tired of paying head waiters for their waiter and captains coming around with their hand out expecting money. Also, the waiters have to pay their buss boys at least \$15 per month and a single man that can afford it pays more.

Then there is the waiters' linen; he has to be clean at all times, shaved, shined and clean clothes; and their clothes soon get dirty handling meals and drinks of all kinds. He has to have dress suit and an extra coat besides for break fast and lunch, and in summer he wears white jackets, the laundring of which he has to pay himself and he will use two and sometim of these jackets a day in the hot weather. His carfare will average \$9 per month

to be able to mix any kind of a drink; he also ha to be in a sense a cook, too, as many guests reso they can see it is fixed just as they like it best. knowledge of every dish on the bill of fare and be able to tell you it is and how it is prepared and he also is asked by the guests to prepare many little delicacie not on the bill. In education some waiters can boast of a superior education to most husines men, as some can speak as many as seven different languages and I know personally several that can speak three and four.

For all of this a skilled waiter gets the sum

of \$1.00 per day. It is true he makes good tips, out by the time he gets through paying for his position and keeping himself clean, his salary is all gone and a great deal of his tips. If the time ever comes when a waiter can demand s salary that will enable him to live respectably and not look for the despised tip, it will be the greatest boon to waiterism, and I am sure every waiter will welcome it.

As the papers have stated some of the walters have worked in one place for years, which goes to show they are steady and reliable. My husband has been in St. Louis 15 years and has held but two positions in that time, and now, like all the rest, after all his years of faithfulness, he turned out without an hour's notice and a black man takes his place. Is this right? I say no. I don't see why the big business men in St. Louis vill allow such a thing. I appeal to the fine principles of all business men to try to do somehing and not let the blacks come and take the bread and butter out of the mouths of innocent children. Parents can take care of themselves as long as they have their health, but what is going to become of the children and two-thirds of the waiters are married and have families? I appeal to every liberty-loving man in St. Louis, especially the business men who go to these hotels and cafes for their meals and perhaps know personally some of the waiters they have come in daily contact with. I also appeal to every working man and woman in St. Louis, both union and nonunion, to help in this great cause

and I know you will have the gratitude of every waiter's wife in St. Louis. A WAITER'S WIFE.

The play they saw was of the usual kind patronized by the "tired business man." While it was in progress, somehow the whole world seemed to know that Pilbury was emancipated. Kindred spirits were everywhere. They ran up against them in the lobby. They halled them in passing cars.

HEALTH COMMISSIONER STARKLOFF SAYS:

"The life of one child who dies from hydrophobia is worth more than all the dogs in the municipality."

NOT MUZZLE ALL THE DOGS? WHY

How a dog acts when afflicted with rab- If a Mad Dog Bite You of Jimmy Monkey to himself one afternoon when his worker was out. ies-Read this carefully and if you see a dog with these symptoms tie To you should be bitten by a dog suspected him up immediately.

About 4 o'clock, Pilbury, his face somewhat drawn and pale, made his OGS afflicted with rabies are not afraid of water, in the early stages; they obey the voice of their master until the disease has progressed to the stage of madness. Following is a very clear statement wound cauterized as soon as possible. If it is of the symptoms manifested by a dog with rabies. It is believed the dog was mad the Pasteur treatment from the Encyclopedia Britannica:

> YDROPHOBIA does not commence with fury and mad-ness, but in a strange and anomalous change in the habits of the dog; it becomes dull, gloomy and taci-turn, and seeks to isolate itself in out-of-the-way places, retiring beneath chairs and to odd corners. But in its retirement it cannot rest; it is uneasy and fidgety, and no sooner has it lain down than it jumps up in an agitated manner, walks backwards and forwards several times, again lies down and assumes a sleeping attitude, but has only main-tained it for a few minutes when it is once more moving about. Again it retires to its corner, to the farthest recess it can find, and huddles itself up into a heap, with its head concealed beneath its chest and forepaws. This state of continual agitation and inquietude is in striking contrast with nary habits, and should therefore receive attention.

> At this period no disposition to bite is observed; the an mal is docile with its master and obeys his voice, though not so readily as before, nor with the same pleased counte nance. There is something strange in the expression of its face, and the voice of its owner is scarcely able to make it change from a sudden gloominess to its usual animated

T HESE symptoms gradually become more marked; the restlessness and agitation increase. If on straw, the dog scatters and pulls it about with its paws, and if in a room it scratches and tumbles the cushions or rugs on which i usually lies. It is incessantly on the move, rambling about, scratching the ground, sniffing in-corners and at the doors, as if on the scent or seeking for something. It indulges in strange movements, as if affected by some mental in fluence or a prey to hallucinations. When not excited by any external influence, it will remain for a brief period perfectly still and attentive, as if watching something, or following the movements of some creature on the wall; then it will suddenly dart forward and snap at the vacant air, as it pursuing an annoying object or endeavoring to seize a fly.

At another time it throws itself, yelling and furious, against

the wall, as if it heard threat-ening voices on the other side, or was ess, the animal is still docile, for its possible. So little dread has the rabid frenzy. But the saliva is already viru ent, and the excessive affection which it evinces at intervals, by licking the nands or face of those it loves, render the danger very great should there b wound or abrasion. Until a late period in the disease the master's voice has powerful influence over the animal. When it has escaped from all control and wanders erratically abroad, fero clous and restless, and haunted by horrid phantoms, the familiar voice yet ex erts its influence, and it is rare indeed that it attacks its master.

Copyright, 1913, the Frank A. Munsey Co. There is a disease called lyssophobia, which closely resembles hydrophobia, and is brought on by nervous dread. It has been contended by some that there is really no difference between these diseases and that hydrophobia is imaginary. MAYOR IGNORED CHARGES

Testifies Story Did Not Appear to Be True-Accusers Arrested in Winerooms.

Louis Board of Fire and Police Commis-sioners Wednesday night that Lieut, and Night Chief of Police Barlow, intimate personal friend and political sup-porter of Mayor Chamberlain, had been guilty of immoral conduct when a mem-ber of the Police Department. Barlow was tried on secret charges

Barlow was tried on secret charges preferred against him by the Police Roard on the statements of the women who appeared as witnesses, after the same charges had been ignored by Mayor Chamberlain. The Board took the testimony under advisement, and announced it would reserve its decision until next week. The members of the board are appointed by the Mayor.

Mrs. Anna Wilson, who refused to tell where she lived, admitted that she preferred charges against Barlow with Mayor Chambeflain, and after he had refused to entertain them she went to the Police Board. She said she is

years old and separated from her She testified that Barlow was the fa-ther of her child, and that she had known him intimately since December, 1911. She testified that Barlow had contributed \$20 to her support since she

tributed \$20 to her support since she had known him.

Helen Lee and Alliston Love, who live in a flat at 125A Collinsville avenue, testified that Barlow made frequent visits to their flat between midnight and 6 a.m. The Lee woman also testified that she was at times requested to visit Barlow at night in the office of the Chief of Police.

Barlow's visits to the flat, the Lee woman testified, lasted from 3 minutes to one and one-half hours. Alberta Reece, a negro maid, employed by the two women, corroborated their statement elative to the frequent visits of the night chief.

night chief.

A. C. Page, who lives in the same flat, testified that after the place was raided three weeks ago and the two women arrested, Barlow took them back to the flat after they had been released.

Detectives Chrismer and Campbell of the St. Louis police department were called to testify one to the character of

the Lee and Love women. They said the two women frequently had been ar-rested in St. Louis winercoms, but never had been convicted in police court. Mayor Chamberiain was called as a witness for Barlow. He testified Mrs. Wilson visited him and told him the story about Barlow. He said he took no action, because the story did no

BONI WINS DIVORCE POINT MURDER EVIDENCE HALTS INQUEST OVER WATCHMAN

> Coroner Orders Police to Investigate Death of Owen Smith. U. R. Employe.

To give the police a chance to investigate the death of Owen Smith, at years old, Coroner Padberg Wednesday delayed the inquest. Smith lived at 2521 North Spring avenue and was employed as a watchman by the United Railways He died at the city hospital Tuesday

from meningitis. His nephew, Patrol-man Michael J. Smith, president of the Police Relief Association, was notified. Smith had been found on the sidewalk at Sarah street and Fairfax avenue, June 22, and it was believed that he had fallen. At the beginning of the Coroner's inquest Lawrence Tracy, 2431 North Spring avenue, said he heard that Smith had been struck on the head with a brick by a negro. Michael Sanders, 3743 Lincoln avenue, had heard that Smith had fallen and also that he was hit with a brick.

Patrick Ward, 386 St. Ferdinantavenue, who found Smith, said he knew of no brick throwing. The police failed to find any evidence to support the theory of murder.

National Bank of Commerce stock was 1 point lower in the local market Thursday, on transfers at \$129 to \$128. Other bank and trust stocks were neglected and no sales were recorded. United Railways preferred dropped \$4 point in the early trading on sales at \$31.25 and \$31.50. Closing offers were at the latter figure, with \$31.25 bid. Railways 4s were quiet and about steady in the bid and asked prices. The demand in the miscellaneous list was light and prices showed no material change on the call. Bonds were irregular on the quotations established.

Local Money Market.

One very satisfactory feature of the

Core Money Market.

One very satisfactory feature of the local financial situation is the steady accumulation of funds by some of the trust companies. This is always a bulwark in the dull summer season and is a source of much gratification.

Rates are still very steady, and there is no intimation of any revision downward in the near future. In fact, some of the best-posted of the Mound City banking fraternity are positive enough to aver that they may be higher within the ensuing 30 days.

One noticeable feature in the status is the fact that regular customers have no difficulty in having their needs filled at 6 per cent and thereabouts. Volume of loans has shown no important increase this week, rates ranging from 6 to 6% per cent, with considerable buying of commercial paper at the midway quotation.

The domestic exchange market is still

CLEVELAND, O., July 10.—The ron Trade Review today says:

"The high cost of manufacti —g pig iron and the low prices are beg aling to have effect in reducing the projection of pig iron, as shown by the ures for June, when the output decre —d 200,000 tons, as compared with Mays. The average daily production in June was \$7,225 tons, compared with \$9,885 tons in May, a loss of \$635 tons.

"It is noteworthy, however, that the production of coke and anthracite pig from for the first half of 1913 exceeded the production for any similar period in the history of the trade. The total for the first half is 16,317,354 tons, a gain of 859,510 tons, compared with the same period elast

By ROY L. M'CARDELL Mrs. Jarr is a founder in Mrs. Blotch's

society. RS JOSEPHINE BLESSINGTON BLESSINGTON BLOTCH was in to Mrs. Jarr when friend husband came home the other evening.
"In all this heat, too, and she arranging to leave town, and such a busy woman as she is"—
"What did she want?" asked Mr. Jarr,

not meaning to be rude and interrupt, but knowing the visitor must have wanted something. "Well," said Mrs. Jarr, "she was very

sweet about it, but she did mention that we were in arrears for our dues to the Society for Ignoring the Obvious." "That's a new one on me," said Mr. Jarr. "I don't remember having joined; but maybe that's part of Mrs. Blotch's plan for ignoring the obvious—collect-ing dues from people who never heard of the organization before."

members pay annual dues of \$\frac{12}{2}.

Mra. Blotch said it was enough to take the heart out of one who was working for any cause; but most women would NOT pay more than \$\frac{1}{2}\$ as year to belong to any chub. And sometimes she had to dun them shamefully to even get the \$\frac{12}{2}.

"But what is this Society to Ignore the Obvious?" asked Mr. Jarr.

"Well, primarily, Mrs. Blotch says, it is to inculcate savoir faire and tact. To instance, when women get on the four rear seats they should ignore the obvious, which is if they do not like smoking they should take seats further up."

"They do that already." suggested Mr. Jarr.

"Well, then, members of the Society to Ignore the Obvious must not make remarks such as 'How stout you are getting!" or I see you are not touching up your hair any more! and things like that. In the summer time, Mrs. Blotch says, social questions are more to the fare than sociological ones, so to greatly and freely lend their names as patron-getting?" has just returned from Minocqua, Wis., where he visited his brother, Marion, who is also a capable musician. "While in Minocqua I attended a meeting of the City Council," Mr. Lambert says. "There was a motion under discussion authorizing the purchase of a chandeller for the city hall.

"I yote no,' said a member. What we want of shanleers?

Dey ban no more as two mens in town can play hear."

MIRIAM, aged 5, had been delegated to rock the baby to sleep.
"I can't do it, manma," she said trying for some time. ."He wen't keep his eyes buttoned."
